

## Size guide according to its diameter

*Print this page at 100% scale and/or actual size.*

*Confirm with this line that the sheet has been printed with the correct size:*

*Take one of your rings and place it on top of the circles until you find the one that fits best.*

*To do this, the circle must be completely within the diameter of your ring.*

*The circle number will indicate the ring size.*

*Example:*
